Reding's Gravel & Excavation Company

John Reding

Project Manager

1420 Richland Drive

Storm Lake, IA 50588

712-732-4059

Overview

As the City of Storm Lake and Reding's Gravel & Excavating Co. continue to progress with the reconstruction of Tulip Lane, you will notice changes in construction activities in the coming days and weeks.

Construction Updates

- The contractor has completed the underground utilities and will begin turning their focus to paving the new street.
- Please continue to coordinate any special access needs to your home with the on-site construction representative. Concrete requires time to strengthen. Please refrain from walking or driving on new concrete until it has been opened to the public. The difference between fresh concrete and fully cured concrete is imperceptible.

Work Area

We ask that you please be respectful of and stay well clear of construction zones. Many hazards and dangers exist from heavy machinery, loose material, confined spaces, etc. and often times are not recognizable by the general public. The Contractor has responsibility to ensure safety on the project and within the construction area. Any direction from the Contractor regarding safety must be heeded; likewise, if you observe an unsafe condition please report to the Construction Representative immediately.

Contacts

Construction Newsletters

Informational newsletters, such as this one, will continue to be mailed to you periodically throughout the remainder of the project. If you have questions or concerns at any time, please contact Bolton & Menk at the phone numbers or email addresses listed.
